

Washington Report

by **GEORGE ANDREWS**
Member of Congress
Third District of Ala.

Socialism must be getting respectable in America, judging from some of the health care legislation being introduced in Congress—and as aspirants to the presidency.

Socializing our welfare system, through the guaranteed annual income, may get first consideration in the Ninety-second Congress, but the battle over socialized medicine is certain not to be far off.

Although national health insurance programs have been proposed and rejected in Congress for almost 30 years, several have been put forward in 1971. Perhaps the most radical is that suggested by Senator Edward Kennedy and a group of his fellow Presidential candidates in the Senate.

His plan calls for a complete Federal takeover of health care and compulsory payroll deductions to pay for it. Even its most conservative estimates show that it will be fantastically expensive — to the taxpayers, of course.

Specifically, the Kennedy program would cover all citizens, and its health benefits would include hospitalization, physician services, preventive and home care, nursing — home, mental health care, and dental services.

The Social Security Administration also figures that in order to meet the expected costs of this program, taxes would have to be one-third higher, or almost \$1,000 a year from each worker.

This does not include the like amount that an employer must contribute for each employee. Before any American taxpayer allows the Federal Government to tell him how he must spend his earnings, he had better know what the cost is going to be.

Health care costs are going to be high. The Medicare program, for example, have proven to be far off the mark. The actual cost of this program today is double original estimates.

The original \$3 monthly premium paid by the elderly for doctor fees, under Medicare has risen to \$5.50 and the hospital deductible, originally \$40, is now up to \$52.

The cost of medical care and hospitalization has risen during the last decade, and it is altogether proper for Congress to look for ways to help the private health industry improve the health of all our citizens, who are loudest in bemoaning the "crisis" in health care.

While there is room for improvement in our health system, the picture is not as dark as some have painted it, and certainly it is not ready for complete "socialization."

The infant mortality rate in this country is down from 124.5 per 1000 in 1900 to about 21 per 100 today. Tuberculosis and polio have almost been eliminated, and advances continue against cancer.

Although we can still use more doctors, the United States has more doctors per population than any other major nation in the world, with one for every 640 citizens. On the other hand, in Great Britain

where socialized medicine has produced poor quality health care, one doctor is available for every 1,150 citizens. In France, where more than one-third of a worker's earned wages goes to support a national health care system, one doctor exists for every 750 people. Several health care proposals have been introduced in Congress, and the president has a plan of his own. Many more proposals will be studied. Much more can and should be said about this matter, and I intend to do so. However, any proposal which calls for the Federal Government to take full control, destroy private enterprise, and destroy freedom of choice and the cure is worse than the individual initiative disease.

DENNIS JACOBS AND BARRY FARRIS had these bass to show for their Saturday afternoon at the Elba Country Club pond last week. The boys caught their trophies about 15 minutes apart late Saturday afternoon. They were fishing with a blue worm at the upper end of the pond when both fish were caught.

Dennis reports his fish weighed 9 1/2 pounds and Barry said his weighed and even 10 pounds. Both boys plan to have the fish mounted.

Barry was talking freely about how he managed to land his ten pounder and in his zest for success it appears he went to the fish and wound up in the water above his knees before securing the old granddaddy.

Easters Fights Move Of Draft Board

Earlier this month when the word leaked out that Coffee County Draft Board was to be combined with the Crenshaw County Board in Luverne, Representative Douglas Easters fired off telegrams to several elected politicians in Washington. He received immediate answers from Senator Allen and from Representative George Andrews.

Both answers shared his concern. However, Senator Allen later mailed a copy of his answer from Selective Service headquarters. (Deputy Director Byron V. Peplone) which took three pages to nicely say, "Sorry about that boys."

Information received by The Elba Clipper indicates the planned transfer will go through without any second thoughts.

Armory To Be Named For New Brockton Man

A formal dedication service will be held at 2:00 p.m. Sunday, March 28th for the New Brockton National Guard Armory.

The Armory will officially be named Fort Paul L. Sawyer, Jr., in memory of First Lieutenant Paul L. Sawyer, Jr., who died during hostile action in the Vietnam Conflict. He was a native of New Brockton.

The public is cordially invited to attend.

Troy State To Register Students Monday

Registration for the spring quarter at Troy State University will be held on Monday and Tuesday (March 29-30) from 8 a.m. to 3:30 p.m. on each day.

Materials necessary for registration will be distributed in McCall Hall. Trial schedules and course schedules may be obtained at the entrance to Bibb Graves Hall on Wednesday afternoon. On Monday they will be available in McCall Hall.

New students must obtain a check sheet and an admission slip from the registrar's office before registration.

Students attending Troy State on the G. I. Bills must see Mrs. McGowan in the financial aids office in Bibb Graves Hall as soon as they complete registration.

Students may register through April 12 but with a reduced load at the late date.

Classes will begin according to schedule on Wednesday morning, March 31. A normal spring quarter enrollment is expected. The spring quarter also will get underway at the Maxwell and Fort Rucker Branches on March 29.

Calf Show Is Set Here On April 7

The Coffee County Cattlemen will sponsor their annual Show and Sale on Wednesday, April 7th. It will be held at the Farmers Livestock Barn in Elba. The fat calf show is for Junior Cattlemen and FFA members. The sale is open to everyone having cattle to sell, regardless of type cattle.

The calf show begins at 9:30 a.m. and the sale begins at 1:00 p.m.

Black-Gold Football Set For Friday

Football Coach Leon Atkins announced this week the annual Black-Gold football game will be played this Friday night (March 26) in Tiger Stadium at 7:30 p.m.

Interested football fans are urged to come out and look over the prospects for Elba's 1971 football team.

Atkins reports a host of new players have joined the roster during spring practice this year and expects another fine football team at Elba High School.

Witnesses To Convene In Andalusia

About 1500 Jehovah's Witnesses are expected to convene on Andalusia on April 25th for the dedication of three Kingdom Halls — two in Andalusia and one at Opp. The public meeting will be held at the Andalusia High School, one of the two presiding ministers of Jehovah's Witnesses in Andalusia.

No Weekend Deaths On State Highways

The Alabama highway patrol didn't have a single rural traffic fatality in the state from 6:00 p.m. Friday through 12 midnight Sunday, however, they did investigate 138 rural traffic accidents with 77 injuries.

These accidents bring the number of people killed in rural Alabama traffic accidents this year to 174 compared with 168 killed during the same period last year for an increase of 6 fatalities.

Dothan district troopers investigated 12 accidents with 9 injuries during this period. The Dothan district has 26 fatalities so far this year as compared with 11 at the same time last year.

Coffee County troopers investigated no accidents last weekend. So far this year 27 people have been killed in rural motor vehicle traffic accidents in this county as compared with 2 killed during this same period last year.

Commissioners Redivide Gas Tax Money

The Coffee County Commissioners took some unusual action in their Monday meeting.

Historically state gasoline money has been divided into four different piles and equally between the four districts.

Monday the commission voted unanimously to divide this money by percentage of road miles in the county. This action drops District 1 and 2 from a monthly \$8,000 each to \$7,000 and \$7,100 respectively. District 3 (Elba) goes up to \$9,700 and District 4 (Enterprise) gets \$11,200. The motion was made by Commissioner Flournoy Whitman and seconded by Commissioner Buster Bowdoin.

The balance of the \$5,000 will continue to go into a Road Paving and Bridge Fund.

According to Commissioner Mullins, District one has 19.9% of the roads; District 2 has 20.1%; District 3 (Elba) has 27.8%; and District 4 has 32.1% of all the roads in the county.

JAMES HUBERT FLOWERS of Troy was injured in this one vehicle accident last week above Victoria. According to his statement, he started down the hill approaching the Metcalf Road and attempted to slow down, anticipating the stop sign at the crossing. When he found his brakes would not work Flowers ran off the road and into this field rather than chance hitting another car in the intersection. When his truck hit the bank and/or the fence it turned over. He received cuts on the back and a compound fracture of the leg.

Flowers was taken to a Troy Hospital and transferred to the Dothan Hospital by a unit of the Elba Rescue Squad. Trooper Dan Morris of the Alabama Highway Patrol investigated the accident and commended Flowers for his quick thinking.

MARS Call

Transmitted To Hometowns

Considering the great distances involved the telephone calls made to the United States by soldiers in Vietnam seems incredible.

Nevertheless, the total of such calls now made sometimes exceeds 40,000 a month—thanks to the military affiliate radio system (MARS). There are 46 fixed MARS stations in Vietnam, plus four portable stations, which give coverage to 95 percent of the soldiers stationed there.

You're going to plant PEANUTS.

Call your Basic Slag dealer now.

As you prepare now for top yields and higher grade nuts this year, Basic Slag should be included in your plans because it . . .

- corrects acid soil conditions in time for this year's peanut crop. Basic Slag is finely ground, and the calcium is in the form that goes to work immediately in the soil.
- provides, in addition to calcium, phosphate, magnesium, manganese, and iron.
- is available with potash and boron premixed, if desired.

It's your business to grow peanuts. Let your local dealer help in your management by having him schedule your Basic Slag order now.

This week (and last week) I am disturbed with our "new" postal system. Now the mails almost grind to a complete halt during the weekends. It got so slow coming into Elba that now no mail is put in the post Office boxes because only about a dozen first class letters were coming in on Sunday morning. Our fellow Alabamian Winton Blount is casting his eyes at the Senate seat held by John Sparkman but right now it seems we have had enough of his "progress" during the short time he has been Postmaster General. Personally I need something other than someone's word that they are improving and speeding up postal service before it sinks into my thick skull!

State Representative Douglas Easters, a member of the Military Affairs Committee, told me last week it looks promising for Elba to get a new National Guard Armory—not in the next week, but we are on the list and state matching money has already been set aside whenever the Federal Government turns loose their part. A new Armory will be nice but there are also some good side effects. Easters says that often the old building and property are traded to the city involved for a very nominal sum. If the city mind might be proper for our local governing body not to make any definite plans for building a new city hall that has been mentioned occasionally during the last few years.

By the way, Representative Easters reports that if he has any say about changing Alabama to Eastern Standard Time he would have to say no. It seems the people of Coffee County have given him the word they like it like it is now! Well, the Alabama Motorist Association people have an answer for me when I ask about the school children getting up early and about people on shift work getting up so early—the word is these people can just change. Phooey! If the big city bankers and stockbrokers want to work the same hours the people in New York work why must they change the balance of the 3,444,665 people in Alabama.

I know this is treading on thin ice but here goes. The Azalea Garden Club got Mayor Brunsen to declare March "Clean-Up Month" again this year. This newspaper published a picture of the signing of the proclamation signing and of the winners of the anti-litter poster contest, but that must be all of Clean-Up Month in Elba and without much cleaning. Now I point my finger at the ladies of the Garden Club and ask WHY? You should have done those pants suits you adopted when the dresses got too short and with your family and neighbors, set an example for us all.

It has been and still is interesting to listen to the pros and cons in the trial of L. L. Williams, Jr., for killing civilians in Vietnam. The TV news recently held interviews with a number of people in Columbus, Georgia, where the trial is taking place at nearby Ft. Benning. Every person questioned felt the man was being treated unfair in one way or another. I have heard this so often in this area. These people do not approve of killing necessarily, but many share the opinion that it is an inevitable by-product of war. A young negro gave the answer that would easily fit me and a lot of you. . . He said something to the effect that who was he to condemn. "While the man was over there defending our country, I was home in my nice soft bed." I am horrified to think of someone killing innocent civilians
